OBJECTIVE

Passionate Python Full Stack Developer with hands-on experience in building responsive, user-friendly applications. Seeking an opportunity to collaborate on meaningful tech solutions and grow within a challenging, team-oriented environment.

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** Bootstrap, React.js, Django
- **Back-End:** Python, PostgreSQL
- **Tools & Version Control:** Git, GitHub, VS Code

PROJECTS

E-Commerce Website 🛒

Technologies Used: HTML, CSS, JavaScript

- Developed a fully responsive e-commerce front-end interface with product listings, cart management, and category filtering.
- Implemented user-friendly navigation using JavaScript.
- Enhanced UI/UX with clean layouts and CSS animations.

CRUD Application 🗄️

Technologies Used: React.js

- Build a dynamic CRUD (Create, Read, Update, Delete) app using functional components and React hooks.
- Implemented a modular component architecture to enhance code reusability and scalability.

Library Management System 📖

Technologies Used: Django, PostgreSQL, HTML, CSS

- Created a web-based system to manage library operations including book issue/return, user registration, and admin controls.
- Developed features such as book search and report generation (PDF/Excel).
- Utilized Django admin panel for backend management and PostgreSQL for data storage.
